SHOT BY THE LEADING LADY.

A Tragedy in the Chattanooga Opera House Just Before the Curtain Rises.

Chattanooga, Tenn., Sept. 22.—Julia Morrison, leading lady of the "Mr. Plaster of Paris" farce comedy company, shot and killed Frank Lieden, stage manager and leading man, tonight, on the stage of the city opera house, just before the curtain rose for the performance. Three shots were fired at close range, all taking effect in Lieden's head. He sank to the floor and was dead in a few minutes. The woman was arrested and taken to the city jail.

A coroner's inquest was held, at which it was developed that trouble had existed between Lieden and Miss Morrison, and today she slapped him. It appeared that they quarreled over the woman's alleged bad acting, Lieden accusing her of being but an amateur. The woman claims that Lieden repeatedly insulted her, and that she shot him in self-defense.

The verdict of the coroner's jury was to the effect that the murder was premeditated and wholly unjustifiable. The woman claims to be from New Orleans, and the man with the company named James, she says, is her husband. James has been arrested as the instigator of the crime. The company has been on the road three weeks and has been unusually successful.

WILL GOEBEL BE DEFEATED?

Representative Berry, of Kentucky, Thinks So.

THE SITUATION IN MARYLAND.

Democrats Jubilant Over the Prospects for Victory—General Fitz Lee to Return from Cuba.

Special to THE TELEGRAM.

Washington, Sept. 23.—Representative Berry, of Kentucky, who is in the city for a few days, predicts the defeat of Goebel for governor of the state and the election of General Taylor, the republican nominee. Mr. Berry is a democrat, but has not been friendly to Goebel and has thus far held aloof from participation in the Kentucky campaign. In conversation the other day he stated that the situation has not improved for the democracy and the outlook for a restoration of harmony during the present campaign is very remote. The anti-Goebel feeling he says, is particularly strong in the big cities, like Louisville, Lexington, Covington, etc. In the rural districts he admits that Goebel's strength will be more pronounced, but he does not think that it will be sufficient to overcome the defection in the cities of the state. Brown, the independent candidate, he says, is making an active canvass of Kentucky, as are also the rest of the nominees of the bolting ticket, and they have shown no disposition to abandon the fight against the regular candidate. Mr. Berry says that the republicans have numerous troubles in the state, the most important being the lukewarm attitude of Governor Bradley and his friends toward General Taylor, but this, with the present division in the ranks of the democracy, will not be serious enough to endanger the ticket. Mr. Berry thinks, however, that if the democratic party in the state were united the attitude of Governor Bradley toward his party's ticket would be enough to cause the overwhelming defeat of Taylor.

As to the legislature, Mr. Berry thinks it will be democratic which will insure Mr. Blackburn's election to the senate. The ex-senator, says Mr. Berry, is very popular in Kentucky, and were it not for the unpopularity resulting from his connection with Goebel he does not think there would be the slightest doubt of his carrying a majority of the legislature.

Democrats in Maryland are jubilant over the prospects. They say that Senator Wellington's bolt will cost the republicans in the districts surrounding Cumberland, the home of the senator, a great many votes. That section of Maryland usually rolls up the big republican majorities, and with Senator Wellington lukewarm the county of the senator may go democratic in November.

Republicans from the state as a rule coming to Washington, uphold the course taken in the matter by Governor Lowndes, but they say in the interest of party success the objectionable resolutions may be rescinded.

It is reported that General Fitzhugh Lee will return to Richmond from Cuba within a few weeks. Mr. Fitzhugh Lee and her daughters, Misses Ellen, Nannie and Virginia, and her youngest son, George, are now in Richmond, the guests of friends. It is not known just when the general will return to this country, but it is said it will be within a very few weeks.

Ex-representative Brown, of Virginia, was the other day appointed deputy collector of internal revenue at his home city in Virginia.

Congressman Rixey, of Virginia, has recently taken a house in Washington. During the last session of congress he had rooms at the Metropolitan hotel. The congressman will spend considerable of his time in Washington before the beginning of the next session of congress.

The defection of Senator Wellington in Maryland is causing a great deal of uneasiness in administration circles. The defeat of Governor Lowndes, and the rest of the republican ticket is looked upon as certain unless the senator can be pacified, and it is rumored among Maryland republicans that the aid of President McKinley may be invoked to get Wellington back into the traces.

NEWS OF LIEUT. OLMORE.

According to a Spaniard, He and His Party are Faring Badly.

Boston, Sept. 22.—A naval officer on one of the ships at Cavite, says in a private letter, written to relatives here under date of August 19: "I today made a trip to Manila purely to see and interview a Spaniard who claims to have seen Lieutenant Gilmore and his men. The Spaniard arrived in Manila on the 12th, coming through the outposts at San Fernando. His name is Glaza, and he is a planter by occupation. On the first of February last he was on his plantation when he was surrounded by a deputation of natives who made him a prisoner. He was forced to follow the movements made by the so-called Filipino republic and tramp through mud and water and over mountains, in their wanderings. Two weeks before the arrival at Manila he saw a Bigan, Lieutenant Commander Gilmore and his fourteen fellow prisoners. From his report it is judged that they have fared badly at the hands of their captors, and although their courage was undaunted, they were in bad shape physically, in reality being half starved. Gilmore himself, he said, was in better health than some of the others, being a man of strong physique and strong determination. The whole party was destitute of clothes and all the necessities of life. The failure of the United States to ransom them as expected had so enraged the insurgents that their treatment, which for sometime had been most kind, had since become the reverse. The members of the party, however, were not discouraged, and fully expected to return to their friends. Glaza thought that with proper measures employed by the United States government there would be no trouble in effecting the speedy release of Gilmore and the Yorktown's men."

THE AGONY SOON TO BE OVER.

Light is breaking upon the dark battlefield of the east. Soon will the rabid anti-expansionist have to cease his clamors for want of a subject. The rod of savage empire must cease to sway on the Philippine strand, while from the mountain tops of Luzon to the Negro swamps the glorious stars and stripes will flap and flutter in the breeze.

There have been long months of weary fighting, and splashing in the bog, and the administration grows very naturally weary. Our brave boys are yielding in startling numbers to the malignant diseases of that dangerous climate, as well as to the monotonous, stealthy attacks of the wily insurgents. A heroic treatment of the situation is to be adopted.

The great scheme originated not in the dense brain of the war department's secretary, but the man of genius who fetches salvation to the old flag, lives a private citizen at Sedalia, Mo.

He signs his name "Scipio Caesar MacCord Warrior," and his great scheme is in substance as follows: The war department authorities are to immediately and without any semblance of ceremony seize all the elephants now in the United States with circuses and forming part of the menageries of zoological gardens, and to forthwith transport them to the scene of strife in the east, where they are to be formed into battalions to be utilized in the attacks upon the Filipinos.

Just listen, please, to Scipio as he, in his epistle to Mr. Root, touches upon the merits of the plan:

"You see," he says, "my secretary that a elephant is a horrid looking beast and a hundred elephants with gatling guns on their backs would simply raze hel with Thamm greasers and skar Them into the nex Whirl."

The administration has already a good start in the elephant business. There's Baby Otis already over there. He is a white one, of course, but his rusty down could be painted the natural tint, and by being blindfold, and having a great din created in his rear, he could be made to charge with remarkable swiftness in the direction of the enemy till he found where he was "at."

The grand charge will be soul-inspiring—so different from the "Charge of the Light Brigade." Not with dumb spears, but the fire-mouthed galling will belch thunder and destruction from the backs of the beasts, creating terrible havoc in the junglemen's ranks. No trumpets will be needed, either.

There will be one grand swoop of "battle's magnificently stern array," and the glory will be ours, and our boys can all immediately return home in the pride and pomp of victory.

And the patriotic and thoughtful Scipio, for his presence of mind in this terrible hour of danger, should be granted by the government a commodious pension, with which he could spend the rest of his days in affluence.

Rev. Collett, the colored divine healer and faith curist, is promulgating his doctrine at Lexington this week. He held a meeting here some time since and some of our colored contingent almost went wild over him. It is claimed that he made some cures in this city among the negroes.

At Lexington yesterday one of his patients went back on him. She was sick of typhoid fever, and was getting well under the treatment of Dr. Buchanan, when the preacher visited her and told her to trust the Lord and eat any thing and as much as she wanted and she would get well. She did the eating, but died promptly.

The following is from the Charlotte Observer:

"A recent statement in The Observer that 'the Agricultural and Mechanical College at Raleigh is already crowded beyond the capacity of its dormitories,' affords the Atlanta Journal a text for

a sensible editorial on the educational revival in Georgia and the two Carolinas. One of the most hopeful signs for the south, as that paper well observes, is 'the increased interest of the people in educational matters generally, and especially in those methods of education which are best adapted to the needs of the average student, and which will be most effective for the development of the resources of our country.' A new educational era may be said to have dawned upon the south, an era in which the education of the hand as well as the brain is demanded. Our state has fortunately taken its place in the front rank in the establishment of the textile school. The southern state that does not provide manual training for its young men and women must drop out of the race.

GEN. WHEELER SNUBBED.

The Fighting Alabamian Appears to Have Been Shelved.

Gen. Joe Wheeler, who for a time jumped about the country tooting the praise of McKinley's imperialism, has been snubbed in the Philippines by General Otis, and, according to cable advices from Hong Kong, he wishes to be ordered back home. It will be remembered that General Wheeler was very anxious to take the field in the Philippines, and finally his importuning resulted in the president instructing him to proceed to Manila and report to Major General Otis. The press had much to say about the good work General Wheeler would do when he took the field against the Filipinos. It was generally understood from the Washington dispatches that Wheeler would be given the command of Funston's brigade and participate in the active operations of Lawton and MacArthur as soon as the dry season commenced. It appears, however, that upon his arrival at Manila he met with a chilling reception. There was no field band at the landing place to hail his coming with martial music, but, on the contrary, General Otis exhibited the marble heart and extended the icy hand; in other words, he was to use language of diplomacy, person non grata to the entire military outfit at Manila and was treated as an interloper.

General Wheeler for weeks wanted to be assigned to a command, and at last, growing impatient, he called on General Otis in order to ascertain "where he was at." He then learned that he had been been "billed" for the command of a little and lonely island of the archipelago situated "far from the madding crowd's ignoble strife." Wheeler protested against being snuffed out in such a manner, but the man who shaves his chin and allows his hair to grow on the rest of the lawn remained firm. Wheeler then began to yearn for home and every fond spot that his infancy knew. He had been thrown down hard and his dreams of leading a dashing charge against the Filipinos were jolted out of him. Army officers predicted that when General Wheeler sailed for the Philippines he would not be given a show, for the reason that he would be in the way of the regular army men, and they would resent his coming to Manila.

General Wheeler was all right so long as he travelled from one city to another making speeches in favor of McKinley's Philippine policy and imperialism, but the moment he sought a command in the Philippine army he began to bore the president. The desire of Wheeler to distinguish himself made him persistent, and finally the president sent him to the Philippines, knowing full well that General Otis would find a way to smother him. The treatment General Wheeler has received will arouse considerable indignation, because the country is well aware of the fact that as a soldier he is the superior of Otis in every respect, and the equal, if not the superior of Lawton and McArthur.—New Orleans States.

TRINITY COLLEGE NOTES.

Opening Sermon Preached—Over 200 Students at the Park.

Correspondence Telegram.

Trinity College, Trinity Park, Durham, N. C., Sept. 22.—The opening sermon to the students of Trinity College was preached by President Kilgo in Main street church, Sunday morning, September 17th.

Prof. A. H. Meritt delivered the first of a series of lectures given by members of the faculty, Saturday evening. His subject was, "Critics and Criticism." These lectures are delivered each month, and are an important feature of college life.

Dr. J. J. Lafferty, editor of the Richmond Christian Advocate, was a visitor at the park during last week. He conducted chapel exercises and spoke to the students in his characteristically interesting way.

At the meeting of the athletic association Mr. John M. Flowers was elected acting captain of the baseball team next year. Mr. P. H. Hanes had previously been elected president. Mr. Richard Webb was elected president and Mr. Stewart wins secretary and treasurer of the tennis association.

Quite a number of students are taking postgraduate work at the college this year. There are several students working for the A. M. degree.

Mr. L. W. Elias, class of '99, son of Hon. Kope Elias, spent some time at the park on his way to Harvard to enter the medical school.

There are now at the park more than two hundred students, and considerably more in the college department than were present during the entire first term of last year, while the increase in the high school is very much more over the past year. The increase at the college is gratifying because it has been gained in spite of the fact that the commercial department has been transferred to the high school, and the requirements for admission to the freshmen class have been raised a year. These requirements have been rigidly enforced.

This is the present policy of Trinity College. It ensures that men who enter the freshmen class are prepared to do successfully genuine college work, and it is believed that this kind of policy on the part of colleges will tend to foster the secondary schools, and in the end raise the whole educational work of the state.

PENALTY OF FAILURE.

Admiral Montijo to be Punished for
His Defeat at Manila.

Madrid, Sept. 22.—The court-martial
which has been in session here for two
days, taking testimony in regard
to the destruction of the Span-
ish fleet at Manila, has sentenced Ad-
miral Montijo, commander of the
fleet, to be placed on the reserve list
and to be deprived of his right of pro-
motion. It is believed, however, that
some means will be found to prevent
the carrying out of the sentence.

After exercise of any kind a ver-
ride in an open carriage or near the win-

How to Look Good.

Good looks are really more than
skin deep, depending entirely on a
healthy condition of the vital organs.
If the liver is inactive you have a
bilious look; if your stomach is dis-
ordered you have a dyspeptic look;
if your kidneys are affected you have
a pinched look. Secure good health,
and you will surely have good looks.
"Electric Bitters" is a good astringent

A Wonderful Cure of Diarrhoea.

A prominent Virginia editor had
almost given up, but was brought back
to perfect health by Chamberlain's
Colic, Cholera and Diarrhoea Remedy.
Read his editorial, From the Times,
Hillside, Va.

I suffered with diarrhoea for a long
time and thought I was past being
cured. I had spent much time and
money and suffered so much misery
that I had almost decided to give up
all hopes of recovery and await the
result, but noticing the advertisement
of Chamberlain's Colic, Cholera and
Diarrhoea Remedy and also some tes-
timonials stating how some wor-
ful cures had been wrought by this re-
medy, I decided to try it. After taking
a few doses I was entirely well of that
trouble, and I wish to say further to
my readers and fellow-sufferers that I
am a hale and hearty man today and
feel as well as I ever did in my life—

A Word to Mothers.

Mothers of children affected with
croup or a severe cold need not hesi-

Cough Remedy. It contains no opiate

attended its use in the treatment of
colds and croup has won for it the ap-
proval and praise it has received
throughout the United States and in
many foreign lands. For sale by C.

WINE OF CARDUI

THE LINK THAT BINDS.

JACKSON, TENN., Nov. 23
I was subject to miscarriage for three years,
and suffered constantly with backache. I wrote
to you for advice, and after using three bottles
of Wine of Cardui, according to your directions,
I am strong and well, and the mother of a fine
girl baby.
Mrs. E. N. JOWERS

There is no use talking—a baby in the house
husband and wife together. Nothing is sadder
The prattling and cooing of the little ones offers
occasional worries and trials of life. When a
derangement somewhere in the genital organs, ca-
lled by one or more of those common disorders known as "female troubles,"
is the remedy. It puts the organs of generation in a strong and healthy
condition, fitting the wife for the sacred duty of producing her kind.
During the period of gestation the entire system is built up to withstand the ordeal of labor, and makes its advent a lusty and
strong, well-fitted to grow to maturity in perfect health. The mother, too, passes through the trial with little pain and no dread.
Wine of Cardui is truly a wonder-
ful medicine for women.

THE CITY BUYS THE JAIL LOT.

Synopsis of the Business Transacted By the Board.

The board of aldermen met in regular session last night at the mayor's office, all present except Ellington, Hunter and Price.

The matter of opening Battle avenue which was referred to the street committee, at the request of that committee, was continued until next meeting.

The city engineer filed his monthly report.

A committee from the colored Odd Fellows asked the city to take steps to prevent injury to their building, caused by grading East Market street. Referred to street committee.

The special committee to which was referred the matter of selecting a lot for the city hall and market reported that it had come to an agreement with the county commissioners for the purchase of the lot now occupied by the county jail, and recommended the acceptance of the same. The recommendation was adopted.

Grades were established on Forbis and Lee streets.

Alderman Merritt moved that the city subscribe for "Michies Corporation Cases" for the use of the city attorney. Carried.

The board adjourned.

The United States transport Buford, which was about to sail, was detained in her dock.
